Good afternoon Rachel,

Having now reviewed the HBF submission, I would like to clarify a couple of items from the submitted representation document. As I have been uploading specific MM comments, I have noted the following:

- Paragraph 13 refers to MM2, but the text fits with MM4. Please could you confirm that this paragraph should refer to MM4?
- Paragraph 21 refers to MM99 and MM100. These MMs are related to the glossary, rather than the monitoring framework.

As the comments are not related to a specific proposed Main Modification, I am unable to add them to a MM. However, please be assured that the full document that you have submitted will be passed to the Inspector for consideration.

Kind regards,
Julie
